

# Contents of Volume 2

## Part III ANISOTROPIC SCATTERING

- 10 Phase Functions**
- 11 Results for the Henyey–Greenstein Phase Function,  
Unbounded and Semi-Infinite Medium**
- 12 Other Phase Functions, Semi-Infinite Atmospheres**
- 13 Henyey–Greenstein Functions, Results for Finite Layers**
- 14 Results for Other Phase Functions, Finite Layers**
- 15 Polarization and Azimuth-Dependent Terms**
- 16 Rayleigh Scattering**

## Part IV SAMPLE APPLICATIONS

- 17 Photon Optical Paths and Absorption Lines**
- 18 Planets**
- 19 Scattered Light in the Earth’s Atmosphere**
- 20 Miscellaneous Applications**

INDEX
